1. Applicant's arguments presented on September 9, 2005 have been fully and carefully considered. Upon consideration of the claims the examiner discussed with applicant to restrict the product by process from the allowable process claims to advance prosecution. Applicant's attorney agreed and authorized the restriction election as set forth below:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 11-19, drawn to a method of making a panel, classified in class 264, subclass 109.**
- II. Claims 10 and 20, drawn to a product by process, classified in class 428, subclass 411.1.**

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other

and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed could be made by a materially different process which mixes phenolformaldehyde resin having a higher nitrogen content than claimed with lignocellulosic particles which is then dried to reduce moisture, then a second resin can be added and then subjecting the composition to a nitrogen reduction step and thereafter consolidating.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. During a telephone conversation with Mr. Victor on November 16, 2005 a provisional election was made with traverse to prosecute the

invention of Group I, claims 1-9 and 11-19. Affirmation of this election must be made by applicant in replying to this Office action. Claims 10 and 20 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Victor on November 16, 2005.

The application has been amended as follows:

In the Claims:

Delete claims 10 and 20 in their entirety. Applicant reserves the right to file for a divisional application.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Lechert Jr. whose telephone number is 571-272-1203. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on 571-272-1196. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
